

Carefx Management Team

ANDREW HURD, CEO AND CHAIRMAN

Prior to joining Carefx, Mr. Hurd served as Sr. Vice President, Sales and Marketing of the Practice Services Division of WebMD Corp (HLTH). Before his tenure with WebMD, he was President, Health Information Management at QuadraMed Corporation (QMDC). Mr. Hurd brings nearly 20 years of healthcare and healthcare IT management experience to Carefx along with a stellar track record in aggressive top and bottom line growth, organizational transformation and operational efficiencies.

OSCAR DIAZ, FOUNDER, CHIEF SOFTWARE ARCHITECT

Oscar Diaz, a visionary and pioneer in Healthcare Information Technology (HIT), is the Founder and Chief Software Architect at Carefx. In his role as CSA Mr. Diaz is responsible for technology strategy, enterprise architecture, technology planning, and innovation. His efforts have resulted in an enterprise architecture that reduces IT complexity and costs, improves alignment between IT and clinicians, and drives strategy-enabling business growth for provider organizations. While directing development of the company's next-generation software services platform, Diaz continues to build strategic partnerships with key stakeholders and innovators in healthcare information technology.

Prior to founding Carefx, Diaz was responsible for the successful formation and build-out of Emtek, a provider of point-of-care clinical information software (subsequently acquired by Motorola, then Eclipsys Corporation). His nearly four decades of experience in the industry has also included executive level positions at Baptist Healthcare, EMTEK, Eclipsys, Medspecialists and cMore Medical Solutions.

ROBERT ARMKNECHT, EVP & CFO

Robert (Bob) Armknecht has 17 years of financial management experience, with over 10 years in the health sciences industry. As Controller for the Scottsdale based SCINET Inc, Mr. Armknecht managed the financial activities of a Health Care Services organization that quadrupled in size over a 3 year period, culminating its acquisition by a public company. As a division controller at Medical Manager Health Systems, and WebMD, Mr. Armknecht managed the financial activities of several separate business groups, and filled various financial analysis and accounting rolls supporting Mergers and Acquisitions at

WebMD Practice Services. Immediately prior to joining Carefx, Mr. Armknecht served as the VP of Finance for The Molecular Profiling Institute, Inc. a diagnostic reference lab located in Phoenix AZ, dedicated to the rollout of medical testing based on the discoveries of the Translational Genomics Institute.

DR. PING ZHANG, EVP & CTO

With more than 20 years of technology, software engineering management and business experience, Dr. Zhang has worked with organizations ranging from start ups to some of the world's best known technology companies. His credentials include leadership of highly successful large scale development projects for QuadraMed, Siemens, ABB and GTE/Verizon. Dr. Zhang earned his Bachelor of Science degree in China at age 19 and then a Master of Science in Computer Engineering and a Ph.D. from the University of Arkansas.

RANDY HAMAMOTO, VP, SALES

With more than 15 years of software sales ,sales management and operations experience in the healthcare information technology industry, Randy Hamamoto, has a passion for delivering technology solutions that support improved clinical decision-making at the point of care. Prior to joining Carefx, Randy served as the Vice President of Sales for the Western Region of Sage Software Healthcare Division. At Carefx, Randy leads the effort of expanding the Carefx footprint in the marketplace.

AMY FERRETTI, VP, MARKETING

Ms. Ferretti has more than 15 years of integrated marketing experience in the healthcare technology space, with a concentration on corporate positioning and brand development. A strong background in strategic planning, product marketing, and marketing communications, Ms. Ferretti has developed groundbreaking integrated marketing programs for leading healthcare technology companies, including Clinicom, Quadramed, Lumedx, Sunquest/Misys, and Concuity. At Carefx, Ms. Ferretti leads the company's marketing strategy and operations, including market positioning, brand management, demand generation, communications, and interactive initiatives.

DAVID WARD, VP, BUSINESS DEVELOPMENT

Prior to Carefx Mr. Ward served more than eight years in senior management positions at the Practice Services Division of WebMD (HLTH), including Vice President of Business Development and Vice President of Sales. Before WebMD, he spent five years as Vice President of Sales, Marketing, and Business Development at Companion Technologies, a wholly owned subsidiary of Blue Cross Blue Shield

of South Carolina. Mr. Ward began his career at IBM and spent ten years there in various sales and sales management positions. At Carefx, Mr. Ward leads the company's business partner/alliance strategy.

QI LI, MD, VP, CLINICAL STRATEGIES

Dr. Li brings nearly 15 years of healthcare informatics and clinical practice management experience to Carefx, including significant expertise in informatics design, electronic health record (EHR) development and adoption to support quality improvement and patient safety. As vice president of Clinical Strategies for Carefx, Dr. Li is evolving the company's clinical workflow offerings and bridging the gap between evidence based medicine and information technology for the providers in healthcare organizations. Prior to joining Carefx, Dr. Li led the internal development of the Longitudinal Medical Record (LMR) at Partners Healthcare, resulting in enterprise adoption by 5,000-plus physician users at all primary care and specialty clinics. Dr. Li also held product management and strategy positions with PatientKeeper, Inc., and McKesson's Medical Management Group.

ERIC LEADER, VP, TECHNOLOGY ARCHITECTURE

Eric Leader brings a rich technology and engineering background to the Carefx team. Prior to joining Carefx, Mr. Leader served as Chief Technology Architect for Catholic Healthcare West (CHW), the largest non-profit healthcare provider in the southwest, where he provided strategic technology oversight for Information and Medical Technologies supporting CHW's 45,000 employees.

Previously, he held senior engineering and management roles at Digital Equipment Corporation (now Hewlett Packard) and MicroAge. Mr. Leader's current areas of research include technical architecture and social aspects affecting highly available applications, end-user engineering for clinical systems, and data-driven decision support in healthcare. He is a graduate of Arizona State University College of Engineering.
